

U-Net Segmentation of Landslides from Drone LiDAR

Nimesh Akalanka · Vijay Kolanchinathan · Md Rafsan Jani

Nimesh Akalanka: Collected the drone LiDAR and orthomosaic data for all 12 sites, created the landslide masks from the orthomosaic and DTM images, and trained the U-Net (ResNet50) model for all four input configurations (RGB, RGB+DTM, RGB+Hillshade, RGB+Slope).
